PROJECTS

Job Match

11/2023 - 12/2023 Remote

https://github.com/melihbedel/final_project

A smart job search platform that does it all - has a solid database, connects to other systems via API and has a user-friendly website. It's like an intermediary between professionals and companies.

- Technologies: Python, MariaDB, Fast API, JWT

Forum Application

10/2023 - 11/2023 Remote

A forum app that has categories, topics, messages, etc. We can post threads, create categories, reply to threads, and the ability to chat between users.

- Technologies: Python, MariaDB, Fast API, JWT

Logistics Application

07/2023 - 08/2023 Location

This is an app for employees of logistics companies. They use it to manage the company's trucks - track their routes, manage the packages they carry, and more.

- Technologies: Python, OOP

EXPERIENCE

Electrician

IMT Electric

04/2021 - 12/2021 Bulgaria

- Understand the basics of electricity including voltage, current, resistance and power.
- Learned how plan and execute installations based on blueprints.
- I had the opportunity to learn how to install and maintain electrical systems for residential, commercial and industrial buildings.
- Learned more about different types of wiring, such as cables, bus systems, and more.
- Learned how to diagnose problems and solve them.
- Improved my effective communication skills to work collaboratively with other construction professionals, clients and team members.

STRENGTHS
